TIRED OUT!

At this season nearly every one needs to use some sort of tonic. IRON enters into almost every physician's prescription for those who need building up.

BROWN'S IRON BITTERS
THE BEST TONIC
For Weakness, Lassitude, Lack of Energy, etc. It HAS NO EQUAL, and is the only iron medicine that is not injurious. It enriches the blood, invigorates the system, restores appetite, aids digestion. It does not blacken or injure the teeth, cause headache or produce constipation—other iron medicines do. DR. G. H. BREVET, a leading physician of Springfield, Ohio, says:

"Brown's Iron Bitters is a thoroughly good medicine. I use it in my practice, and find its action exceeds all other forms of iron. In weakness, or a low condition of the system, Brown's Iron Bitters is usually a positive necessity. It is all that is claimed for it."
DR. W. N. WATERS, 1219 Third Street, Georgetown, D. C., says: "Brown's Iron Bitters is the Tonic of the age. Nothing better. It creates appetite, gives strength and improves digestion."

The recommendations made as to protests, appeals and suits by Secretary Manning in a special request to congress two years ago, are all adopted.

The penalties are made more stringent for bribery, or for inspectors of customs, or for any irregularities in inspection of baggage. The government is authorized to bring suit for the value of merchandise fraudulently imported, after such merchandise has passed into the hands of the importer. The other provisions are all of a minor character.

The bill as submitted contains no provisions as to internal revenue, it being understood that the Democratic members are prepared to submit an internal revenue bill at an early day.

Democrat members of the ways and means committee estimate the amount of reduction made by the bill at from \$40,000,000 to \$60,000,000.

NO COMPROMISE YET MADE

MESSRS. ARTHUR AND SARGENT AND MR. PERKINS CONFER.

Chief Sargent Says the Conference Resulted in Nothing—Managers of Other Railroads Running Into Chicago Feeling Uneasy. No New Developments.

CHICAGO, March 2.—Late last evening Chief Arthur and Grand Master Sargent had a two hours' conference with President Perkins at the room of the latter. Mr. Perkins said that Mr. Arthur called on him, and they had a talk about the strike. He declined to say whether any result was reached, what was the nature of the conference, or who had inaugurated the proceedings that resulted in the chiefs of both sides coming together. Chief Arthur and Mr. Sargent were still more reticent. Neither would say a word about the matter in hand. What was done was not known to their subordinates.

Mr. Arthur is a determined man, and from the start has said that overtures must come from the railroad company. Nothing in the situation as the engineers pretended to see it yesterday, appeared to discourage him. Some of the strikers asserted that financial reasons, the condition of the road and the decline in stocks, made persons interested in the company's securities anxious to have the trouble compromised.

These inferences led most persons familiar with the situation to infer that the overtures looking toward arbitration or compromise came from the company's officers.

It was learned this morning that the conference between President Perkins and Chief Arthur last night was brought about by Editor Detwilder, of the Knights of Labor, who has been bringing all his influence to bear to promote an amicable adjustment of the trouble. Chief Arthur absolutely refused to show himself to reporters this morning, but Mr. Detwilder volunteered the information that both Arthur and Perkins had a better opinion of each other than they had before last night. Both sides will be glad when the strike is over," he added.

Later, Chief Arthur said to a representative of the United Press: "The conference amounted to nothing, and it may be stated positively that it will not be renewed unless an official request to that effect comes from the road. There were no new developments in the case to-day."

Holding a Conference.

CHICAGO, March 2.—It was reported this afternoon that a conference was being held between the officials of the Burlington road and Messrs. Arthur and Sargent. It was also reported that a settlement of the strike is very likely to be effected.

Passenger Trains Running.

CHICAGO, March 2.—Dispatches received by the Herald indicate that the Burlington officials have succeeded in improving upon their work of Tuesday, in that more passenger trains were started at various points along the lines of the system, and they have been run nearer the schedule time than that day. There is but one report of any freight running, but division superintendents at various points are talking of starting freight trains to-day.

At the same time the company does not hesitate in one instance at least, to buy live stock, which is tied up in a yard without a market. Engineers who, the company claims, are competent, have been examined and set to work at various places, but to offset this the strikers furnish instances of the burning out of fires in the locomotives, and the bad time made by the fast mail and other passenger trains.

Other Railroads Feel Uneasy.

CHICAGO, March 2.—Considerable nervousness prevails among the managers of the various railroads in this city. They think there are indications that the Brotherhood Engineers are trying to find pretexts for striking on other roads than the Burlington. Parties who pretend to be well posted say that the Brotherhood has already decided that in case of the Burlington gaining the upper hand, the men on all other roads between Chicago and the Missouri river will be called out, because the engineers believe there is a secret understanding between all the Missouri River roads to down them. It is also asserted that a strike on the Burlington's connections, east and west, will be inaugurated, if those roads do not decline to accept freight from the Burlington.

Engineers Have a Secret Meeting.

DENVER, Col., March 2.—A secret meeting of the Brotherhood of Engineers and Firemen was held here last night. Every road running into the city had its representatives. Resolutions endorsing the Burlington strike were adopted, it is learned, and it was resolved to stand together for their demands. Violence against "scabs," and any destruction to railroad property, was denounced. The first train moved east since Monday was started last night. No passengers were on board. The engineer was a man who has been employed in a photograph gallery here for three years past.

At Keokuk, Iowa.

KEOKUK, Iowa, March 2.—The first freight train since the strike began running north yesterday. Both freight and passenger trains are now running on the four divisions operated by the management here, being the first of the entire system. Several engineers arrived from St. Louis, yesterday and are being examined for service. The striking engineers are temperate in their deportment, but busy and determined to hold out.

Moonshiners Raided.

LITTLE ROCK, Ark., March 2.—Reports received by United States Marshal Fletcher, this morning, announce a successful raid in Stone county by Deputy Marshal Storey and posse on moonshiners. A fight ensued between the posse and the illicit distillers. Eight prisoners were taken and three stills destroyed, together with a large amount of liquor.

An Entire Block Burned.

NEW YORK, March 2.—The entire block bounded by Lexington and Third avenues and Forty-first and Forty-second streets, was totally destroyed by fire this afternoon, causing a loss of \$750,000.

SENSATIONAL AND MYSTERIOUS.

A Handsome Lady Suicides in the Leland Hotel, Chicago.

CHICAGO, March 2.—The suicide of a beautiful woman, a stranger and guest at the Leland hotel, at an early hour this morning, is surrounded with circumstances sensational and mysterious.

Last Sunday a handsomely dressed woman arrived at the hotel and registered as "Mrs. Heaton Manice, New York." Numerous telegrams have been received and answered by her. Last evening one was received which was at once taken to her room. It was found on the floor afterwards and read as follows:

"JERSEY CITY, N. J.
"Mrs. Heaton Manice, Leland Hotel, Chicago:
"Be courageous. Cannot send man to trust to take place. Will come if you say so. God bless you.
JACK O'CONNOR,
"Police Headquarters, Jersey City."

Later in the evening a package of letters was sent down to the hotel office to be delivered in the morning, addressed to David Sullivan, of the law firm of King & Sullivan, this city. It was nearly 1 o'clock this morning when the house watchman heard a shot. He was then near Mrs. Manice's room, and with the assistance of the night clerk, soon broke in the door. In any easy chair lay the body of Mrs. Manice. She had undressed as if to go to bed, and was clothed only in a silk night dress. Dr. Jayne D. Hammond, the house physician, arrived in a few moments, and he found that life was extinct. The woman had placed a revolver under her night dress, next the heart, and when she fired the fatal shot death resulted instantly. The police were notified.

The address, "John Power O'Connor, 240 Seventh street, Jersey City," was later found in an envelope, and he was notified by telegraph of Mrs. Manice's death. It is stated that Mrs. Manice is the defendant in a divorce proceeding, which her husband instituted in New York, and testimony was taken yesterday by James Goggin, commissioner for New York.

Lynched From a Ladder.

CHICAGO, March 2.—A dispatch from St. Louis says: Word has been received from Carthage, Tex., that at an early hour yesterday morning 400 men forced open the jail and took out Tom Forsythe, who yesterday confessed that he had murdered County Treasurer Hill by cutting off his head, and robbed him of \$6,000. He was taken to a tree in the jail yard, his hands were tied behind him, and a rope was placed around his neck. A ladder was put up, and Forsythe ascended, requesting as he did so that he be allowed to execute himself. A word of command was given by the leader of the lynchers, and Forsythe jumped from the limb on which he stood. His neck was broken and death occurred instantly. The lynchers took the body into the court house, and laid it on the blood spots of the murdered man in the treasurer's office.

Chased Four Miles and Escaped.

MARION, Ind., March 2.—Yesterday morning Constable A. S. Walleit served a warrant on James Watson, a horse trainer, for his arrest on the charge of complicity in a number of stealings that have occurred here recently. Watson jumped astride his horse and put the spurs into his flanks. Walleit also mounted a horse and went in pursuit, and an exciting four-mile chase ensued, during which several shots were exchanged. In running down a hill Walleit's horse stumbled and the rider was thrown, sustaining dangerous injuries. Watson made good his escape.

Dana Says Hill is in the Field.

NEW YORK, March 2.—The Herald has a special from St. Louis, which says that part of a letter has been published there, said to have been written by Charles A. Dana, of the New York Sun, to a prominent St. Louis Democrat, in which Mr. Dana says: "When the New York state committee meets to select delegates to the National convention, it will be found that Hill will be the strongest man, and should the unit rule be adopted as four years ago, he will assuredly have the delegation for him. Hill is in the field."

British Vessel Held by Officers.

NEW YORK, March 2.—The British steamer Flamborough, chartered by the Diamond Steamship company, a new line running between here and Haytian ports, expected to sail yesterday but it is detained by the customs officers on suspicion that she is about starting on a filibustering expedition and that her cargo consists of arms, ammunition, etc., intended for Haytian insurgents.

One Death Causes Three Others.

ABERDEEN, Miss., March 2.—Four colored men were drowned in Oldtown creek last week. The first to lose his life was one who attempted to ford the stream a week ago Wednesday and was drowned. On Sunday 300 negroes were searching for his body, when a canoe containing six of them was capsized and three of its occupants were drowned.

A Fatal Accident.

CARROLLTON, Ky., March 2.—Hezekiah Butts, an employe of the Louisville & Nashville railroad coal yard at Worthville, was accidentally killed Tuesday. The ratchet slipped as an immense tub of coal was being hoisted by means of a derrick; the crank flew off, and, striking him in the forehead, most of the frontal region was torn away.

Nine in Three Years.

TEXARKANA, Tex., March 2.—The wife of James McElmore, living at this place, has given birth to triplets, two boys and a girl. The couple have been married only three years and this is the third set of triplets that has been born during that time and all alive. The McElmore neighborhood is indifferent to an immigration movement.

New Steel Vessel for the Lakes.

CLEVELAND, O., March 2.—The new Lehigh Valley Transportation company's steel steamship, known as No. 16, was launched yesterday afternoon. The dimensions of the boat are: Length over all, 308 feet; keel, 230 feet; beam, 40 feet; depth 24 feet 6 inches. The capacity is 2,650 tons.

Ilna Di Murska Dying.

WILKESBARRE, Pa., March 2.—During a concert here last evening Ilna Di Murska fainted away on the stage. An effort was made to resume, but Di Murska was too ill to stand. She was taken immediately to the hotel. Her life is said to be despaired of.

The total reduction of duties under the new tariff bill it is thought will amount to about \$55,000,000. But the measure has not been passed yet, and it never will reach the President, if the Republicans can block its way in any manner.

The people of the Lexington Congressional district have good reasons to feel proud of their Representative at Washington City. Colonel Breckinridge has gained a national reputation for his eloquence and legislative ability, and stands among the foremost leaders of his party.

THE Dover News comes out for Emory Whitaker for Congress in the Ninth District, and W. W. Ball, of Mason, for Clerk of the Court of Appeals. Mr. Ball is highly spoken of, but Kenton's candidate is bound to win. —Covington Commonwealth.

Several farmers in Clark County have sold their 1888 crop of tobacco at 10 cents per pound.

An exchange says: "This season's tobacco crop may be too large large—in fact, it is safe that prices will tumble to a point between 5c. and 10c. The farmers who depend on tobacco alone may be badly left."

Says the Fleming True Blue: "Farmers are busy making tobacco beds, and plowing for tobacco and corn. A good deal of ground has been broken, and a very large crop of corn will be put in this spring. There is a larger preparation for tobacco in the county than ever known."

ROWAN WRANGLE SPREADING.

Ex-Governor Knott Says the Charge That He is Pushing the Investigation is Untrue.

The following appeared in the Wednesday's issue of the Louisville Times: "Mr. Sallee, of Maysville, in a published interview, alleges that Attorney General Hardin and Ex-Governor Knott are investigating the prosecution of Judge Cole, of Rowan County, and says that the newspapers garbled their reports of his Sallee's testimony before the Legislative investigating committee. He says that the fight of Messrs. Knott and Hardin is being made from the inside, whatever that may mean."

"A reporter this morning saw Mr. Knott, who seemed rather indignant when shown Mr. Sallee's interview. He said he did not know what Sallee meant. He said: 'I can only tell you that I have had no part in the matter whatever.' Further than this the Ex-Governor declined to speak, at least for the present. General Hardin could not be seen."

The Miguani-Siegrist Star Specialty Company will appear at opera house next Wednesday and Thursday evenings, March the 7th and 8th. The company numbers twenty people, and we are informed that it is the strongest company of its kind ever booked for Maysville. A refined, high class specialty entertainment is always pleasant to witness, and the standard of this company is said to be of such high merit that the strongest praise can be safely accorded it. Bring your wives and children and let them laugh their fill.

The Fleming True Blue Democrat says: "Dave Hechinger and Barbour Russell headed a big delegation from Maysville on County Court day."

INDIFFERENCE TO CONTAGION.

Dreadful Cholera and Yellow Fever, but Not Alarmed by Children's Ailments.

"It is astonishing how much excitement can be stirred up in this city over a contagious disease that New Yorkers have little reason to be afraid of, while there is so much public indifference to diseases that are destroying thousands of lives every year," said a physician of the health department recently. "Just consider how much public alarm would be caused by a few hundred deaths from Asiatic cholera in New York next summer. Yet that disease, frightful as it may be in some parts of the world, could not compete with diphtheria as a destroyer of human life in our climate and in a city with good sanitary regulations. Since 1866, when 1,137 persons died from cholera in this city, there has not been a death from the disease in New York, and the next epidemic will not be as fatal as the last one."

"Next to cholera, perhaps, yellow fever is regarded by many New Yorkers as a plague that must be kept away at all hazards. Every time a man who has been exposed to the disease in another port falls a victim to it in New York, there is a cry of 'Yellow Jack' as if an epidemic were threatened. We had a so called epidemic of yellow fever in 1856 and only thirteen persons died from it. During the last thirty years not as many as two persons a year have died from the disease in New York, and all the patients caught the fever elsewhere."

"Typhus fever and smallpox have caused much alarm in the city at times, but they have been suppressed in great measure. Last year the deaths from typhus fever numbered only fourteen, and the deaths from smallpox thirty-one."

"I remember that in 1881 there was much excitement among medical men and many other New Yorkers because smallpox caused 451 deaths, and 160 persons died from typhus fever, yet the same year over 4,000 children died from diphtheria and scarlet fever. In an average year over 3,000 persons, mostly children, die from diphtheria, scarlet fever, measles and whooping cough in the city, yet we are not half as much excited about such a slaughter of the innocents as we ought to be. These four diseases are called 'preventable,' because it is claimed that a child will not take any of them without exposure to contagion."—New York Tribune.

Value of a Hobby.

If we ever became vindictive toward a fellow man, and desired to punish him, we would deprive him of his hobby; without that he would be lonesome in a crowd, and crowded in a wilderness, and would seek what he had lost and find it not. The business man with a hobby that he rides is a happy man; but if the hobby rides him, the business will suffer sooner or later. The man without a hobby will be found in the club room, the billiard room, or card room. The hobbyist, with his loft of pigeons, his bird skins or eggs, bugs or beetles, takes more substantial happiness than all the members of the highest toned club in a city combined. Besides that, home and Dame Nature is all the world to him and all the heaven he ever aspires to.—Wade's Fibre.

Parcel Post With Canada.

WASHINGTON, March 2.—The new parcels post convention between the United States and Canada, which was signed by Postmaster General Vilas and McClellan, goes into effect to-day. Its provisions are in every respect the same as those of the parcels post convention now in force between this country and Mexico. In brief, it provides that articles of every kind or nature which are admitted to the domestic mails of either country shall be admitted to the mails exchanged between the United States and Canada at domestic rates and classifications. No accounts will be kept between the two countries, but each country will retain all its own postal receipts. The result of the convention makes one postal territory of the United States, Mexico and Canada.

Lived Six Score Years.

PARIS, Ky., March 2.—Willis Allen, colored, died on Townsend creek, this county, at the remarkable age of one hundred and twenty years. He was born in Virginia. He left two children—one forty and the other fifty-one years old. His wife died thirty-five years ago. The deceased has been a consistent member of the Methodist church for sixty years. He claimed to have seen George Washington, and up to his death could see to thread a needle without spectacles.

Stolen Mail.

CINCINNATI, March 2.—A pouch of registered mail was stolen from a mail wagon Wednesday, about 10 p. m., while en route from the Miami depot to the postoffice. The loss was reported to Night Chief of Detectives Gill as soon as discovered, and he detailed three detectives to look for the missing mail. At noon to-day it had not been found. The pouch contained all the registered matter that came in with last night's Pan-Handle mail.

The Small Boy and a Revolver.

NEWARK, O., March 2.—A young boy named Arthur Havens, of Alexandria, this county, came near losing his life while fooling with a loaded revolver.

Tom Cogan Can't Remember.

COLUMBUS, O., March 2.—Tom Cogan was on the stand in the tally sheet trial this morning. He did not furnish any startling testimony, however, as he said that he was unable to remember anything done on the momentous Sunday night, when the tally sheets were doctored, because he had been out with a crowd of convivial friends, and that they had all got under the influence of the cheering and inebriating cup. The contempt case against Steube is still pending.

Newspaper Burned Out.

HARTFORD, Conn., March 2.—Early this morning fire badly gutted the building occupied by the Evening Post, the Globe clothing store and the Connecticut Catholic. The loss, which will fall principally on the Post, will amount to about \$25,000; insurance, \$17,000. Arrangements have been made for the paper to appear as usual.

A Premature Explosion.

NEW YORK, March 2.—Two men were killed this morning in Seventy-first street, between Eighth and Ninth avenues, by the premature explosion of a blast. The names of the men are Patrick Foley and Michael Reilly. The men in charge of the blasting have been arrested.

Tiffin's Seventh Gas Well a Success.

TIFFIN, O., March 2.—The seventh city gas well struck gas at a depth of 1,455 feet, and is the strongest in the field. The flow is estimated to be several million feet per day.

MUNICIPAL MATTERS.

A Lively Session of the City Council, but Little Business Out of the Ordinary Transacted.

Reports Filed, Claims and Accounts Allowed, and Divers Other Matters Disposed of.

The regular session of the City Council last evening was a lively one, and the President was forced to appeal for order a great deal oftener than usual. The discussion of various matters brought up was carried on in a rather free and easy manner, and at times with but little regard to the rules of deliberative bodies. Several of the members "talked back" at each other in pretty plain English, that was enjoyed by the lookers-on.

President Poyntz was in the chair, and all members were in attendance except Mr. Ficklin.

After the roll call, Major Chenoweth said he thought council should take some appropriate action on the death of one of its late members, Mr. John Heiser. He referred to the deceased in feeling terms, and alluded to the high esteem in which Mr. Heiser was held as a citizen. At the conclusion of his remarks he offered the following:

Resolved, That the chair appoint a committee of three to draft resolutions expressing the sympathy of this body with the family of our late member, Mr. John Heiser.

The resolution was adopted on motion of Mr. Mathews, and the chair appointed Messrs. Chenoweth, Cox and Robinson as said committee.

The bond of Mayor Pearce with Chas. B. Pearce and Chas. B. Pearce, Jr., sureties was presented and accepted.

The various city officers presented their monthly reports, which were approved. The following is a summary:

The former Committee on Internal Improvements filed a written report as to the petition of C. L. Stanton with reference to the condition of Walnut street, recommending that no action be taken in the matter until the street is improved and turned over to the city.

Further time was given committee as to the railroad crossing at Fourth street, Fifth ward.

In reference to the railroad crossing at Bridge street, the committee to whom the matter was referred was directed to telegraph Mr. Huntington and have a meeting Saturday, March 3rd, in order to effect some settlement of the matter, if possible.

The question as to legality of the bonds of the Deputy Marshals caused a warm discussion between Messrs. Wood, Wadsworth, Shackelford and others. A motion to strike the matter from the minutes was carried by a vote of 13 to 1. Mr. Wood thought there were thirteen contrary members present.

The matter as to revising and amending the city charter was referred to a committee consisting of Messrs. W. H. Cox, Thos. M. Wood, W. H. Wadsworth, Jr., A. M. J. Cochran, Dr. Phister and Mayor Pearce, with power to act and instructions to complete report not later than March 10th.

The proposition of Mr. J. C. Owens to donate five feet of ground for pavement along said Owens' property on West Second street was referred to Committee on Internal Improvements for further investigation.

The ordinance regulating the granting of license to tavern-keepers and coffee-house-keepers was amended so that the owners and occupants of tenements and vacant property also on each side of the street on each side of the square and opposite square may control the matter.

The ordinance regulating the forfeiture of coffeehouse licenses was amended so as to require the Mayor to report to council the conviction of any of the keepers of said houses in the Circuit Court.

The petition of T. A. Keith & Co. to erect a sign at coal office on Sutton street was not granted. Same disposition was made with the petition of R. T. Cummings to erect awning at his grocery in Fifth ward.

Carr & Tolle were granted permission to erect a frame addition to their stable on Fourth street.

The petition of certain citizens of West Third street for the erection of sufficient gas lamps "to enable the public to travel said West Third street with some degree of comfort and safety" was referred to the Committee on Gas with power to act.

An ordinance amending the ordinance regulating the granting of license to lotteries was presented. A motion to suspend the rules and place it upon its passage was lost. The amendment reduces the annual license from \$1,000 to \$500.

A motion to erect two public gas lamps on Third street between Commerce and Lexington was referred to Committee on Gas with power to act.

Mrs. Lizzie Hiatt was granted \$6 a month until further order.

The "cow ordinance" was amended so as to extend the time of its going into effect from April 1st to May 1st, and not require the posting of notices, as to its

provisions, in the various precincts of the county.

The Marshal was instructed to remove obstructions from and open all streets and public alleys and to notify owners of property on private alleys to have same cleaned out at once.

The Marshal was also directed to notify parties whose property encroaches upon the south side of Fourth street between Limestone and Plum to remove the encroachments complained of so that a pavement can be constructed.

Other matters of minor importance were disposed of after which council adjourned.

Mr. J. F. CALDWELL and family, of the Washington neighborhood, will leave next Tuesday for Slater, Mo., where they will make their future home.

MR. JACOB REED is seriously ill with pneumonia at his home on the Fleming pike, near this city.

THE DEPTFORD ELECTION

THE TORIES REJOICING IN CONSEQUENCE THEREOF.

All Things Considered, the Conservatives Have But Little to Brag Of—Lady Blunt Badly Disappointed—Avalanches of Snow in Italy—Other Foreign Notes.

LONDON, March 2.—The Tories are widely jubilant over the result of the Deptford election, and the Liberals at that place are correspondingly depressed; but in consideration of all the circumstances it wasn't such a stupendous Conservative victory after all.

At the last election Mr. Evelyn, the Conservative candidate, who recently resigned his seat in parliament through disgust with the Irish policy of his party, was returned by a majority of 627, in total vote of 6,737, while Mr. Darling, his successor, is returned by a majority of only 275, in a poll of 5,415. Of the increase of 1,678 in the total vote of the constituency since the last election, 1,020 went to the Liberals. Considering the facts that Deptford is a Tory stronghold, and that the Liberal candidate was in jail instead of personally attending to his canvass, as his adversary was able to do, the Liberals have reason to feel encouraged by the result, and the Conservatives have little reason to rejoice, except over the fact that they escaped defeat by a narrow margin.

Conversation with a number of Liberal and Parnellite members fails to elicit any expressions indicative of a sense of defeat, while all agree that the distribution of the increase of voters in Deptford pretty accurately represents the preponderance of Home Rule sentiment throughout the country, which would manifest itself to the discomfiture of the Tories if a general election were to occur to-morrow. This sentiment, these gentlemen claim, will largely increase as the government's Irish policy continues and develops, and there is scarcely a man of either branch of the Home Rule party in London to-day who does not receive encouragement from the figures published as showing yesterday's vote.

Probably the most disappointed person in England this morning is Lady Anne Blunt, whose confidence in her husband's vindication by an election to the vacant Tory seat could not be shaken. It is likely, however, that Mr. Blunt will again be brought forward as a candidate in a district presenting better chances for his success, and that Lady Anne will yet see her husband hurling such shafts of invective upon the heads of his enemies in the house of commons as he could not launch upon them with impunity from a public platform in Ireland.

Heavy Snows in Northern Italy.

ROME, March 2.—Snow storms of exceptional severity are prevailing in northern Italy. The municipal authorities at Turin have ordered the theaters, schools and markets to be closed in order to prevent accidents from the falling of masses of snow. Several roofs have already collapsed.

Several villages in the Alps have been destroyed by avalanches and many lives have been lost. Troops have been dispatched to aid the sufferers. Many villages near Genoa and Lake Como are suffering from lack of food, and soldiers are cutting their way through the snow to relieve them.

A custom house near Revere was destroyed by an avalanche, and three guards and four other persons killed.

An avalanche visited the village of Sterpone near Irere, and thirty lives lost.

Italy's Position Not Jeopardized.

VIENNA, March 2.—The Fremdenblatt, which is the official organ of the Austrian foreign office, denies that Austria and Germany have counselled Italy to abandon her African campaign and recall her troops, on the ground that events are impending in Europe, which will require Italy to enter the field with all forces. The paper says that Austria and Germany regard the African campaign as purely an Italian matter, and are convinced that a few thousand men in foreign service will not jeopardize Italy's military position.

Foreign Notes.

Eleven persons were killed by an avalanche at Pajares, Spain.

Hopkins May be Sentenced This Week.

CINCINNATI, March 2.—It is expected that before the end of this week United States District Attorney Burnet will make a motion to have Assistant Cashier Hopkins brought down from the county jail for sentence. Mr. Burnet says, however, he does not yet know whether the motion will be made this week, but "it may be." Judge Sage will be on the bench Friday. Last evening Mr. Burnet and Mr. J. T. Colling, of the Fidelity Receiver's office, left for Ironton, O., where Mr. Burnet will argue one of the many bank suits in which the receiver is interested.

She Never Was a Soldier.

ELKHART, Ind., March 2.—The sensational story recently circulated about Mary Hookers having served through the war of the rebellion as a soldier is wholly untrue. Mary is well known as a local crank, but was never in the army.

Fire in the Cincinnati hospital Wednesday did about \$5,000 damage. One woman was frightened so much that she became a raving maniac. The origin of the fire is supposed to have been an explosion of gas which had escaped from a leaking pipe, and accumulated in the space between the roof and the ceiling of the third story.
